To the Honorable Mayor, Members of the City Council, and Citizens of the City of Saint Peter, Minnesota

The annual financial report of the City of Saint Peter, Minnesota (the City) for the fiscal year ended December 31, 2012, is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate, in all material respects, and is reported in a manner designed to present fairly the financial position and results of operations of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The report is presented in three sections: introductory, financial, and other information. The introductory section includes this letter of transmittal and a list of principal officials. The financial section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), the basic financial statements, required supplementary information, and the combining and individual fund statements and schedules. The other information section includes supplemental schedules of statistical data.

The preparation of the report is a requirement of state law. The organization, form, and contents of this report were prepared in accordance with the standards prescribed by the Governmental Accounting Standards Board, the Government Finance Officers Association of the United States and Canada, the American Institute of Certified Public Accountants, and the Minnesota State Auditor's Office.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

THE REPORTING ENTITY AND ITS SERVICES

In addition to the functions over which the City Council exerts direct financial control, the report includes all agencies and entities for which the City is considered to be financially accountable. These agencies and entities are considered component units of the City and include the River's Edge Hospital and Clinic and the Housing and Redevelopment Authority (HRA). These are separate entities and are discretely presented in the basic financial statements. The Economic Development Authority is also considered a component unit of the City. This entity's activities have been blended with that of the City.

The City provides its residents and businesses with a full range of municipal services, including public safety (police and fire), public works, community planning and development, parks and recreation, library, community center, and general administrative services. The City also operates nine enterprise funds: Electric, Water, Wastewater, Environmental Services, Storm Water, Telecommunications Conduit, Heartland Transit, Long-Term Care Facility, and the Medical Office Building Funds.

RECENT DEVELOPMENTS AND ECONOMIC OUTLOOK

The City continues to pursue, and is dedicated to, improvement and enhancement of city services and facilities. The City Council and staff have developed cooperative relationships with other entities such as Nicollet County, Independent School District No. 508, and Gustavus Adolphus College to find ways to enhance the quality of life in the City. These cooperative ventures have resulted in new public buildings, businesses, residences, and recreational facilities, which all serve to improve the high quality of life available in the City.

The crown jewel for new development in the community remains the North Industrial Park. Originally developed in 2003, the business park is anchored by the City-owned River's Edge Hospital, which opened for patients in 2004. In the spring of 2009, the City opened River's Edge Clinic, which is connected to River's Edge Hospital. The services offered on the hospital campus further expanded with the addition of a Mayo Health Clinic. Most recently, completed in 2010, was the construction of a 45+ unit senior housing facility that is interconnected to the hospital and operated by Benedictine Health Systems. A second senior housing facility named Prairie Hill, which is across the street from the hospital campus, and which is owned by Second Century Housing, LLC (Ecumen), is now accepting residents and includes senior housing and memory care units. In addition, the Marshall Street cul-du-sac is the home of three new health related businesses in the last two years, including Sioux Trails Mental Health Services, Shiloh's Hope (group home services), and Counseling Services of Southern Minnesota.

The Saint Peter Food Co-op moved into the award winning, remodeled former Nielsen Chevrolet building on Mulberry Street. After 30 years of business and 15 years at their previous location, the Co-op invested \$3.1 million to purchase and renovate the former auto dealership into a retail grocery store. The move doubled the space of the Co-op and allows for a greater variety of products.

In 2010, Creation Technologies, Inc. relocated their operations to a new 50,000 square foot manufacturing facility within the North Industrial Park. The facility, owned by Traverse des Sioux Enterprises, is leased to Creation Technologies. Creation Technologies, Inc. has increased employment more than the 24 jobs that were committed to by the company during its first two full years in their new facility.

In 2012, at the corner of Jefferson Avenue and Highway 169, a closed convenience store was razed and a new four-store strip mall has been constructed on that site. This has provided a major visual upgrade and a great business improvement at this prominent intersection.

Historic downtown Saint Peter continues to thrive. The 2009 improvements to Minnesota Avenue (Highway 169) have enhanced the appearance of the retail district while improving pedestrian and vehicular circulation. The exceptionally low vacancy rate of downtown properties is significantly better than that found in most other greater Minnesota communities. We continue to encourage upgrades, programs, and enhancements to the downtown storefronts.

The City's transportation master plan identified the need for a cross-town street, Washington Avenue, for better local traffic flow throughout the community. State Trunk Highway 169, also called Minnesota Avenue, provides for traffic accessing the community or passing through. Two projects were necessary to complete the Washington Avenue cross-town connector. The project to connect South Washington Avenue to Trunk Highway 169 at the south end of the community was opened for use in 2012. The Washington Avenue Link project to connect North Washington Avenue at Dodd Road to North Washington Avenue at Davis Street will begin construction in late 2013 and will be open for use by mid-2014.

Planning continues for improvements on State Trunk Highway 169 from the Union Street intersection to the Dodd Avenue intersection for construction in 2014. The goals of the project will be: 1) highway improvements to minimize traffic interruption due to flooding; 2) to improve safe access from the City to the highway with high traffic volumes; and 3) to improve access to and from the highway for local businesses.

Nicollet County is planning for major improvements to their governmental campus in downtown Saint Peter. The county plans to demolish the former Saint Peter Cinema 5 building and in its place construct an office building to allow for the consolidation of off-campus activities.

After a few very slow years, the construction of new housing units is definitely on the rebound. Drummer Construction is completing the development in Orchard Ridge 2nd Addition with the construction of 36 apartment units. Drummer Construction has also purchased the 4.4 acres east of Orchard Ridge 2nd Addition and anticipates the construction of up to 60 apartment units at that location.

Southwest Minnesota Housing Partnership is going to be constructing 40 apartment units called Park Row Crossing. Two buildings, each holding 20 apartment units, will be under construction in the summer of 2013. This will be the third multi-family construction project undertaken by Southwest Minnesota Housing Partnership in the City since 2000.

There is also various single family building sites available within the City.

The City's water utility upgraded the existing water treatment plant located on St. Julien Street and installed a new plant and wells on Broadway Avenue which began operation in 2011. The facilities utilize the latest reverse osmosis membrane filtration technology to provide one of the upper Midwest's best water qualities. The plants are designed to meet drinking water standards and to provide a safe and reliable drinking water supply to the residents of the City, now, and into the foreseeable future. The wells and treatment plants will meet the water demand and growth needs through 2031 and are designed for expansion when necessary. A water storage tower was also added to provide redundancy between the City's upper and lower water distribution systems which increases the reliability of the entire system.

A transmission/substation project for the electric utility began construction in the fall of 2011 and was completed in the spring of 2013. The overhead transmission lines through the community were replaced with more reliable underground transmission lines to interconnect three city substations in series – providing dual service to each electric substation. A new electric substation was constructed on Sunrise Drive and placed in service in May 2012 to add capacity and meet the City's demand and electric growth needs through 2030. Breakers were added to each substation to intercept transmission line faults to further improve the reliability of the electric service to the community. The City now has four substation transformers to provide redundancy to ensure the electric system can meet the City's electrical needs in the event of a failure of any one substation transformer. The City's electric distribution system is "looped" to minimize any electrical outage related to failure of any given section of electric distribution line. Work will continue in 2013 on the installation of an electric distribution line across the west side of the City to further improve the City's electric reliability.

The wastewater treatment plant continues to be adjusted to meet the increasingly stringent requirements of the Minnesota Pollution Control Agency for discharge of wastewater effluent to the Minnesota River. The wastewater treatment plant, which began service in 2004, was designed to meet increasingly strict discharge requirements. Work continued in 2012 on improvements to wastewater collection lines and replacement of service lines to reduce inflow and infiltration, with the goal of reducing the overall cost of the wastewater utility operation.

Recent data suggests that population growth will continue to out-pace much of greater Minnesota which is aided by business growth in the City, our proximity to the Mankato Metropolitan Statistical Area, and our proximity to the Twin Cities Metropolitan Area. Very low unemployment numbers, improved housing starts, sales tax, and lodging tax growth all point towards a positive economic outlook.

FINANCIAL INFORMATION AND INTERNAL CONTROLS

The City's staff is responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the presentation of financial statements in accordance with accounting principles generally accepted in the United States of America. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

The accounting for all activities of the City is divided into various funds as required by state statutes, debt agreements, and good accounting practices. Financial statements are presented on the accrual or modified accrual basis as appropriate. All funds are in conformity with accounting principles generally accepted in the United States of America as applicable to governmental entities.

Accounting and bookkeeping functions for all city activities are centralized under the finance department. Responsibility for development and maintenance of financial records, maintenance of internal controls, and preparation of financial reports is delegated to this department. Utility services continue to stretch out across our community, which brings additional customer service as well as the need for new technology. Internal controls and segregation of duties are reviewed daily to improve our operations.

As a recipient of federal and state financial assistance, the City is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal controls are subject to periodic evaluation by city staff, and an annual audit using prescribed parameters.

BUDGETING CONTROLS

In addition to internal controls, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund and special revenue funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the department level within the General Fund, and the fund level for the special revenue funds.

As demonstrated by the financial statements and schedules included in the financial section of this report, the City continues to set realistic goals and has demonstrated the ability to meet these goals through sound financial management.

INDEPENDENT AUDIT

Minnesota Statutes require an annual audit by independent certified public accountants. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the federal Single Audit Act Amendments of 1996 and related U.S. Office of Management and Budget Circular A-133, if applicable. The auditor's report on the basic financial statements is included in the financial section of this report. The auditor's reports related specifically to the City's compliance with laws and regulations and internal controls are included in a separate document.

Respectfully submitted,

Todd Prafke

City Administrator

Paula O'Connell
Director of Finance

INDEPENDENT AUDITOR'S REPORT

City Council and Management City of Saint Peter, Minnesota

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Saint Pater, Minnesota (the City) as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents. The prior year partial comparative information presented has been derived from the City's financial statements for the year ended December 31, 2011, and in our report dated June 18, 2012, we expressed unqualified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the discretely presented component units' financial statements. These include the financial statements of the River's Edge Hospital and Clinic, whose statements reflect total assets and expenses of \$23,995,239 and \$18,302,659, respectively, as of and for the year ended December 31, 2012. They also include the financial statements of the Housing and Redevelopment Authority (HRA), whose statement reflects total assets and expenses of \$1,366,690 and \$333,968, respectively, as of and for the year ended March 31, 2012. Those statements were audited by other auditors whose reports have been furnished to us. Our opinion on the basic financial statements, insofar as it relates to the amounts included for these organizations as component units of the City, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

(continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of December 31, 2012, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

The financial statements include prior year partial comparative information, which does not include all of the information required in a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the City's financial statements for the year ended December 31, 2011, from which it was derived.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the supplemental information, and the other information section, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements.

(continued)

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and other information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 20, 2013 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosevich, d. Co. P.A.

Minneapolis, Minnesota June 20, 2013

Management's Discussion and Analysis Year Ended December 31, 2012

As management of the City of Saint Peter, Minnesota (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2012. We encourage readers to consider the information presented here in conjunction with the additional information we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

- The assets of the primary government exceeded its liabilities at the close of the most recent fiscal year by \$83,224,462 (*net position*). Of this amount, \$9,979,245 (*unrestricted net position*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The primary government's total net position increased by \$961,680.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$7,773,634, an increase of \$923,195 in comparison with the prior year. Of this total, \$2,665,755 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, the fund balance for the General Fund was \$3,963,763, or 63.9 percent, of General Fund 2013 budgeted expenditures, up from the beginning of the year, which reflected 55.7 percent.
- Total primary government long-term liabilities decreased by \$4,116,548.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements – The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The *Statement of Net Position* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned, but unused, vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, parks and recreation, and economic development. The business-type activities of the City include electric, water, environmental services, wastewater, transit, storm water, telecommunications conduit, the long-term care facility, and the medical office building.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate River's Edge Hospital and Clinic and a legally separate Housing and Redevelopment Authority, for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. Additional financial information for these entities can be found in the separately issued financial statements of these entities. The Economic Development Authority, although also legally separate, functions for all practical purposes as a department of the City and, therefore, has been included as an integral part of the primary government.

Fund Financial Statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmental-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenue, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 30 individual governmental funds within its financial report. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenue, Expenditures, and Changes in Fund Balances for the General Fund and funds designated as major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts annual appropriated budgets for its General Fund and special revenue funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

Proprietary Funds – The City maintains one type of proprietary fund; propriety funds are enterprise funds. These enterprise funds are used to report the functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its electric, water, environmental services, wastewater, Heartland Transit, storm water, telecommunications conduit, long-term care facility, and medical office building operations.

Proprietary funds provide the same type of information as the business-type activities in the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the enterprise funds, all of which are considered to be major funds of the City.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to Basic Financial Statements – The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to the fire department volunteers. Additional information on nonmajor funds can be found in the combining and individual fund statements and schedules section.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$83,224,462 at the close of the most recent fiscal year. This is an increase in net position of \$961,680 from the prior fiscal year.

Summary of Net Position as of December 31, 2012 and 2011										
	Government	al Activities	Business-Ty	pe Activities	To	otal				
	2012	2011	2012	2011	2012	2011				
Assets	¢ 12.514.007	¢ 12.7/2.919	Ф 0.65 2 .690	¢ 12.779.229	¢ 22.167.506	Ф 05 541 05 <i>C</i>

By far, the largest portion of the City's net position (78.7 percent) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (9.3 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (12.0 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

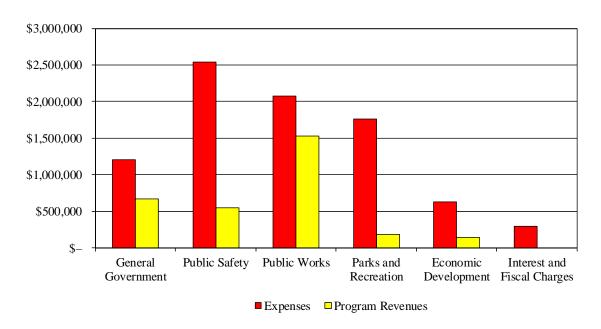

Governmental Activities – Governmental activities increased the City's net position by \$2,110,111. Elements of this change are seen in the table below:

The significant decrease in general government expenses in fiscal 2012 is due to the demolition of the old hospital and nursing home facility owned by the City in the prior year, which caused a loss on disposal of capital assets totaling about \$4,350,000.

The decrease in business-type activities revenue was mainly the result of lower revenues in the Electric Fund totaling \$613,343 and the Wastewater Fund totaling \$329,812. The Electric Fund decline was mainly due to the City issuing credits to customers related to a meter that the City found to have incorrect settings. The decline in the Wastewater Fund revenue was due to a decline in customer usage.

Expenses and Program Revenues – Governmental Activities

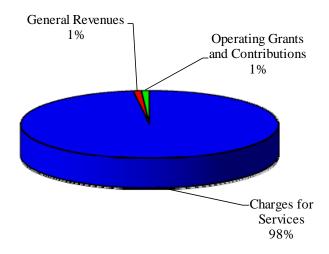

Revenues by Source – Governmental Activities

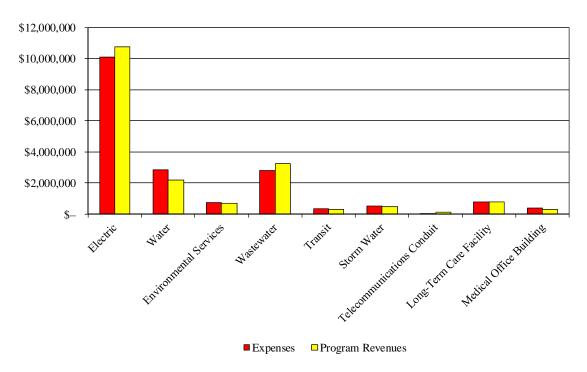

It is important to note these revenues exclude transfers received from other funds.

Business-Type Activities – Business-type activities decreased the City's net position by \$1,148,431. As it shows in the graphs, these funds are supported by rates collected from users.

Revenues by Source – Business-Type Activities

Expenses and Program Revenues – Business-Type Activities

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$7,773,634, an increase of \$923,195 in comparison with the prior year. Of this total amount, \$2,665,755 constitutes unassigned fund balance, which is available for spending at the government's discretion.

General Fund – The General Fund is the chief operating fund of the City. At the end of the current fiscal year, fund balance of the General Fund was \$3,963,763, an increase of \$566,429. As a measure of the General Fund's liquidity, it may be useful to compare fund balance to total fund expenditures. Fund balance represents 63.9 percent of total General Fund 2013 budgeted expenditures and transfers out.

The following table shows the General Fund expenditures and transfers out or budgeted expenditures and transfers out, and beginning fund balances over the past nine years and the upcoming year:

Year	General Fund Expenditures and Transfers Out		Expenditures and Fund Ba		neral Fund – ad Balance at nning of Year	Fund Balanc a Percenta of Expenditu	ge
2004	\$	4,605,939	\$	1,551,091	33.7	%	
2005		4,648,825		1,568,451	33.7		
2006		5,015,069		1,781,076	35.5		
2007		5,185,418		1,920,192	37.0		
2008		5,546,334 2,045,164		2,045,164	36.9		
2009		5,485,688	588 2,050,652		37.4		
2010		5,394,036		2,325,697	43.1		
2011		6,119,576		3,519,518	57.5		
2012		6,099,427		3,397,334	55.7		
Budgeted 2013	6,206,679			3,963,763	63.9		

The fund balance of the General Fund increased by \$566,429 to a balance of \$3,963,763. This balance represents approximately 166 working days (33 weeks) of expenditures. Because the City receives property tax settlements and local government aid (LGA) in two large disbursements each year, the City depends on this fund balance to provide cash flow for its daily operations throughout the year.

The General Fund balance has increased from \$1,551,091 at January 1, 2004 to \$3,963,763 as of December 31, 2012, an increase of \$2,412,672 in 10 years. In the 2013 budget, the fund balance is projected to decline by \$250,000.

Capital Projects – Permanent Improvement Fund – This fund experienced revenues in excess of expenditures of \$89,863 mainly related to capital projects being lower than available revenue sources.

Proprietary Funds – The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City did not amend the original budget during the year.

During the year, expenditures and transfers out exceeded revenues and transfers in and increased the City's fund balance by \$566,429.

Total General Fund revenues exceeded budget by \$600,275. The largest portion of this amount was from intergovernmental revenue sources which exceeded budget by \$304,234, mainly from a grant for fire department equipment.

Total General Fund expenditures were over budget in 2012 by \$212,972. Expenditures were over budget mainly due to the purchase of fire radios purchased from an Assistance to Firefighters Grant. Street repairs and improvements also exceeded the 2012 budget for the second year after City Council approval to provide additional resources for these projects.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – The City's investment in capital assets for its governmental and business-type activities as of December 31, 2012 amounts to \$127,725,059 (net of accumulated depreciation). This investment in capital assets includes: land, buildings and system improvements, machinery and equipment, park facilities, roads, highways, and trails. The total decrease in the City's investment in capital assets for the current fiscal year was \$676,480 (a 2.5 percent increase for governmental activities and 1.4 percent decrease for business-type activities).

Major capital asset events during the current fiscal year included the following:

- Water treatment facility construction
- Electric substation
- Major street repair
- Emergency radio system

There was a decrease in the City's total long-term liabilities of \$4,116,548 during the current fiscal year.

Under current state statutes, the City's general obligation bonded debt issuances are subject to a legal limitation based on 3 percent of total market value of real and personal property. As of December 31, 2012, the total market value was \$485,960,600, producing an allowable debt of \$14,578,818. The City's net debt for general obligation bonds as of December 31, 2012 is \$685,957, which is 4.7 percent of the total allowable debt. The net debt per capita for general obligation bonds equaled \$60 in 2012.

Additional details of the City's long-term debt activity for the year can be found in the notes to basic financial statements.

Discretely Presented Component Units – Please refer to separately issued financial statements of the component units for the management's discussion and analysis of those entity's financial activities.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Saint Peter, Director of Finance, 227 South Front Street, Municipal Building, Saint Peter, Minnesota 56082.

Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds as of December 31, 2012

Total fund balances – governmental funds	\$ 7,773,634
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.	
Cost of capital assets	39,400,782
Less accumulated depreciation	(11,050,216)
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:	
Bonds and notes payable	(7,073,374)
Compensated absences	(360,608)
Interest on long-term debt is included in the change in net position as it accrues, regardless of when payment is due. However, it is included in the change in fund balances when due.	(84,863)
Due to availability, certain revenues are not recognized under the governmental fund statements until received; however, under full accrual in the government-wide Statement of Activities, revenues are	
recorded when earned regardless of when received.	3,737,530
Total net position – governmental activities	\$ 32,342,885

Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities Governmental Funds Year Ended December 31, 2012

Total net change in fund balances – governmental funds	\$ 923,195
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.	
Capital outlays	1,865,721
Depreciation expense	(1,153,879)
A gain or (loss) on the disposal of capital assets, including the difference between the carrying value and any related sale proceeds, is included in the change of net position. However, only the sale proceeds are included in the change in fund balances.	(24,499)
proceeds are included in the change in rand balances.	(21,199)
The amount of bond proceeds is reported in the governmental funds as a source of financing. Bond proceeds are not revenues in the Statement of Activities, but rather constitute long-term liabilities.	(240,000)
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.	1,243,814
The net change in compensated absences payable affects expenditures in the governmental funds, but also affects long-term liabilities in the Statement of Net Position.	(33,073)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	14,020
Certain revenues are recognized as soon as they are earned. Under the modified accrual basis of accounting certain revenues cannot be recognized until they are available to liquidate liabilities of the current period.	(485,188)
Change in net position – governmental activities	\$ 2,110,111

Notes to Basic Financial Statements December 31, 2012

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The City of Saint Peter, Minnesota (the City) operates under "the Standard Plan" form of government as defined in Minnesota Statutes. Under this plan, the City Council, composed of an elected mayor and six elected trustees or councilmembers, exercises legislative authority and determines all matters of policy.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the significant policies:

B. Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements include the City (the primary government) and its component units. Component units are legally separate entities for which the primary government is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's board, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. As a result of applying these criteria, certain organizations have been included in the report as follows:

1. River's Edge Hospital and Clinic – River's Edge Hospital and Clinic is a component unit, proprietary fund type, of the City. River's Edge Hospital and Clinic was formed to own, maintain, and operate healthcare and related facilities, and to furnish medical and surgical care to the sick, infirmed, aged, or injured. River's Edge Hospital and Clinic is exempt from federal and state income taxes on related income. River's Edge Hospital and Clinic is governed by the Hospital Commission (the Commission), which is appointed by the City Council. The Commission exercises governing oversight responsibility for River's Edge Hospital and Clinic which includes such duties as budget review, care of the patients, and management of the facilities as set forth by the ordinance of the City.

The financial statements of River's Edge Hospital and Clinic also include the financial activities of the Community Hospital Foundation (the Foundation). The Foundation is a corporation organized to support the purposes of River's Edge Hospital and Clinic. The Foundation is organized as a nonprofit corporation and is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Foundation is governed by a Board of Directors, which has all of the powers necessary and convenient to provide operation and administration of the Foundation as the Board of Directors determines to be necessary and expedient.

2. Housing and Redevelopment Authority (HRA) — The HRA of the City is a component unit, proprietary fund type, of the City. The HRA operates for the purpose of providing housing and redevelopment services to the Saint Peter area. The governing body consists of a five-member Board of Commissioners appointed by the City Council. Information included for the HRA is as of March 31, 2012 and for the year then ended. Separate financial statements of the HRA are available upon request.

3. Economic Development Authority (EDA) – The Saint Peter EDA is fiscally dependent upon the City and its governing body is appointed by the City Council members. Therefore, the EDA is included as a component unit of the City. The EDA's financial data has been blended with that of the City (i.e. reported as though its funds were funds of the City).

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all of the financial activities of the City, except for the fiduciary funds. The fiduciary funds are only reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position at the fund financial statement level. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on sales, fees, and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied while special assessments are recognized when certified. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, charges between the City's enterprise funds and other functions are not eliminated, as that would distort the direct costs and program revenues reported in those functions. The City applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available. Depreciation expense is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Measurement Focus, Basis of Accounting, and Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements. Fiduciary funds are presented in the fiduciary fund financial statements by type, pension (or other benefit), trust, and agency. Since, by definition, fiduciary fund assets are held for the benefit of a third-party and cannot be used for activities or obligations of the City, these funds are excluded from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if collected within 60 days after year-end.

Major revenue that is susceptible to accrual includes property taxes, intergovernmental revenue, charges for services, and interest earned on investments. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Revenue that is not susceptible to accrual includes licenses and permits, fees, and miscellaneous revenue. Such revenue is recorded only when received because it is not measurable until collected. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

The private-purpose trust funds are reported using the economic resources measurement focus. All fiduciary funds use the accrual basis of accounting as described earlier in these notes.

Proprietary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting, similar to the government-wide financial statements. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Description of Funds

The City reports the following major governmental funds:

General Fund – The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Capital Projects – Permanent Improvement Fund – The Capital Projects – Permanent Improvement Fund accounts for the resources accumulated and payments made for the City's improvement projects.

The City reports the following major proprietary funds:

Electric Fund – The Electric Fund accounts for the activities of the City's electric distribution operations.

Water Fund – The Water Fund accounts for the activities of the City's water distribution operations.

Environmental Services Fund – The Environmental Services Fund accounts for the activities of the City's solid waste collection operations.

Wastewater Fund – The Wastewater Fund accounts for the activities of the City's wastewater processing operations.

Heartland Transit Fund – The Heartland Transit Fund accounts for the activities of the City's transportation activities.

Storm Water Fund – The Storm Water Fund accounts for the activities of the City's surface storm water operations.

Telecommunications Conduit Fund – The Telecommunications Conduit Fund accounts for rental income and expenses of the City's underground conduit lines.

Long-Term Care Facility Fund – The Long-Term Care Facility Fund accounts for the construction of the new long-term care facility, which is being leased out and operated by a separate nonprofit corporation, and the related lease income and debt service expenses.

Medical Office Building Fund – The Medical Office Building Fund accounts for the construction of the new medical office building.

Additionally, the City reports the following funds as fiduciary fund types:

Private-Purpose Trust Funds – The private-purpose trust funds are used to administer resources received and held by the City in a trustee capacity. These funds include the library trust and restricted contributions trust activities.

Agency Funds – Agency funds are used to account for assets held by the City in the capacity of agent. The activity in these funds includes the DARE program, youth center, and the flexible benefit plan.

Component Units

The component unit columns in the basic financial statements include the financial data of the City's component units. They are discretely presented in separate columns to emphasize that they are separate entities from the City.

The information in the component unit columns on the City's basic financial statements reflects combined information for the following:

Component Unit	Combined Information
River's Edge Hospital and Clinic	Operating (enterprise) and Donor-Restricted Funds (fiduciary)
Housing and Redevelopment Authority	Operating Fund (enterprise) as of March 31, 2012

Complete financial statements of the individual component units can be obtained at their respective administrative offices or from the City's finance department at City Hall.

E. Cash and Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

Certain proceeds of enterprise fund revenue debt issues, as well as certain resources set aside for their repayment, are classified as restricted assets in the basic financial statements because their use is limited by applicable bond covenants.

Cash and investments which are restricted also include the River's Edge Hospital and Clinic. Assets limited as to use include assets designated by the River's Edge Hospital and Clinic for future capital acquisitions, debt redemption, self-funded insurance, and other uses over which the River's Edge Hospital and Clinic retains control and may, at its discretion, subsequently use for other purposes.

Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptances, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less are reported at amortized cost. Other investments are reported at fair value.

F. Recognition of Property Tax Revenue

A property tax levy is approved by City Council resolution prior to December 31 of each year and is certified to the County Auditor for collection. Property taxes attach an enforceable lien on taxable property within the City on January 1. Property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. The City receives tax settlements from the county at various times throughout the year.

A portion of the property taxes levied is paid by the state of Minnesota through various tax credits.

Taxes which remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent taxes that is not collected within 60 days of year-end is deferred in the governmental fund statements because it is not known to be available to finance the operations of the City in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material.

G. Special Assessments

Special assessments represent the financing for public improvements paid for by benefiting property owners. These assessments are recorded as receivables upon certification to the county. The corresponding revenue from the delinquent (unremitted) and deferred (certified but not yet levied) special assessments receivable are deferred in the governmental fund financial statements until the year in which they become available (collected within 60 days of year-end). In the government-wide and proprietary fund financial statements they are recorded as receivable and revenue upon certification to the county.

H. Notes Receivable

Notes receivable consist primarily of loans made by the City to area businesses for development or redevelopment purposes. The terms and interest rates of the individual loans vary. The loans receivable in the governmental funds are offset by deferred revenue.

I. Receivables

a. Primary Government

All receivables are shown net of any allowance for uncollectibles. The allowance for uncollectibles totaled \$8,487 at December 31, 2012. The receivables not expected to be collected within one year include property taxes, special assessments, and notes receivable.

b. River's Edge Hospital and Clinic

Patient receivables are uncollateralized customer and third-party payor obligations. Payments of patient receivables are allocated to the specific claims identified on the remittance advice or, if unspecified, are applied to the earliest unpaid claim.

The carrying amount of patient receivables is reduced by a valuation allowance that reflects management's estimate of amounts that will not be collected from patients and third-party payors. Management reviews patient receivables by payor class and applies percentages to determine estimated amounts that will not be collected from third parties under contractual agreements and amounts that will not be collected from patients due to bad debts. Management considers historical write-off and recovery information in determining the estimated bad debt provision.

River's Edge Hospital and Clinic has agreements with third-party payors that provide for payments to the River's Edge Hospital and Clinic at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

J. Interfund Receivables and Payables

All outstanding balances between funds that are not lending or borrowing arrangements are reported as "due to or from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

K. Inventories and Prepaid Items

Inventories are stated at the lower of cost or market, cost being determined by the first-in, first-out method. In the governmental funds, inventories are recorded using the consumption method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are reported using the consumption method and recorded as expenditures at the time of consumption.

L. Assets Held for Resale

Assets held for resale are recorded in the governmental fund which purchased them at the lower of cost or market.

M. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide and proprietary fund financial statements, but are not reported in the governmental fund financial statements. Interest costs incurred on the construction of fixed assets are not capitalized. Interest costs incurred on borrowed funds of River's Edge Hospital and Clinic during the period of construction of capital assets are capitalized as components of the cost of acquiring those assets. Capital assets are depreciated using the straight-line method over their estimated useful lives. Capital assets not being depreciated include land and construction in progress. The City has chosen to report governmental fund infrastructure beginning with capital assets acquired after 1980.

The estimated useful lives are as follows:

	Primary		
	Government	Compon	ent Unit
	Governmental and Business-Type Activities	River's Edge Hospital and Clinic	Housing and Redevelopment Authority
Land improvements	30–50	8–25	3-40
Building and improvements	30–50	2-40	3-40
Utility plant and infrastructure	50		_
Machinery and equipment	5–7	2–25	3-40

N. Compensated Absences

It is the City's policy to permit employees to accumulate earned, but unused, vacation and sick pay benefits. In the government-wide and proprietary fund financial statements, sick leave is expensed as used or when it becomes likely it will be paid as termination pay and vacation is expensed when incurred. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences are paid by the fund for which the employee was employed, including the General Fund and various enterprise funds.

Paid vacation and sick leave is granted to all permanent, full-time employees of the City. Vacation benefits vary with the length of service of the employee. Sick leave can be accumulated up to 130 working days.

An employee of the City with more than six months of service who leaves the City in good standing is paid for all unused and accrued vacation time. An employee who leaves the City may also receive pay for a percentage of accumulated sick days up to 60 percent.

Severance pay for all full-time employees of the police department who are members of the Minnesota Law Enforcement Union Local No. 320 is paid in accordance with the terms of their contract.

O. Long-Term Obligations and Deferred Charges

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method.

In the governmental fund financial statements, long-term debt and other long-term obligations are not reported as liabilities. The face amount of debt issued is reported as other financing sources. Premiums or discounts on debt issuances are reported as other financing sources or uses, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

At the River's Edge Hospital and Clinic, deferred refunding costs are amortized to interest expense over the shorter of the period that the prior obligation or the current obligation is outstanding using the straight-line method. Original issue discount is amortized to interest expense over the period the related obligation is outstanding using the straight-line method. Deferred financing costs are amortized over the period the related obligation is outstanding using the straight-line method, which is a reasonable estimate of the effective interest method.

P. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Q. Net Position Classifications and Flow Assumptions

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, liabilities, deferred inflows/outflows as applicable. Net position is displayed in three components:

- Net Investment in Capital Assets Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- Restricted Net Position Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments, or enabling legislation.
- Unrestricted Net Position All remaining net position that do not meet the definition of "restricted" or "net investment in capital assets."

The City applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

R. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in the classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- Nonspendable Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- Restricted Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- Committed Consists of internally imposed constraints that are established by resolution of the City Council. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- Assigned Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to Council resolution, the Finance Director and/or the City Administrator is authorized to establish assignments of fund balance.

• Unassigned – The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, then use unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use, it is the City's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

S. Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- The City Administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- The budget is legally enacted through passage of a resolution.
- The City Council must authorize transfers of budgeted amounts between departments within the General Fund.
- Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
- Budgetary control is maintained at the department level within the General Fund. Also inherent in this controlling function is the management philosophy that the existence of a particular item or appropriation in the approved budget does not automatically mean that it will be spent. The budget process has flexibility in that, where need has been properly demonstrated, an adjustment can be made within the department budget by the city administrator or between departments by the City Council. Therefore, there is a constant review process and expenditures are not approved until it has been determined that adequate funds were appropriated, the expenditure is still necessary, and funds are available.
- Budgeted expenditure appropriations lapse at year-end.

T. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the City considers all highly liquid debt instruments with an original maturity from the time of purchase by the City of three months or less to be cash equivalents. The proprietary funds' portion in the government-wide cash and investment management pool is considered to be cash equivalent.

U. Risk Management

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The City participates in the League of Minnesota Cities Insurance Trust (LMCIT), a public entity risk pool for its general property and casualty, workers' compensation, and other miscellaneous insurance coverages. LMCIT operates as a common risk management and insurance program for a large number member of cities. The City pays an annual premium to LMCIT for insurance coverage. The LMCIT agreement provides that LMCIT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain limits for each insured event. The City also carries commercial insurance for certain other risks of loss, including employee health insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There were no significant reductions in insurance coverage during 2012. The City participates in a self-insured dental insurance plan as described later in these footnotes.

River's Edge Hospital and Clinic is exposed to various risks of loss from torts: theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; medical malpractice, employee health, dental, and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. Settled claims have not exceeded this commercial coverage in any of the three preceding years. River's Edge Hospital and Clinic is self-insured for employee dental as discussed later in these footnotes.

V. Comparative Data

Comparative data for the prior year has been presented to provide an understanding of changes in the City's financial position and operations. Certain prior year comparative data has been reclassified to conform to current year presentation.

W. Change in Accounting Principle

For the fiscal year ended December 31, 2012, the City implemented GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position." This statement changed how governmental entities present a statement of net position, adding two new basic financial statement elements, and replacing "net assets" with "net position" as the terminology used to describe the difference between the other four elements. The two basic financial statement elements added are "deferred inflows of resources" and "deferred outflows of resources." These new elements are differentiated from assets (deferred outflows of resources) and liabilities (deferred inflows of resources), but have similar effects on net position.

NOTE 2 – CASH AND INVESTMENTS

A. Components of Cash and Investments

				Compon					
				iver's Edge	Ho	ousing and			
		Primary		Hospital	Red	evelopment	Total		
		overnment		and Clinic		Authority	Reporting Entity

	\$	13,679,172	_\$_	11,046,872	\$	526,283	\$	25,252,327	

B. Deposits

In accordance with applicable Minnesota Statutes, the City maintains deposits at depository banks authorized by the City Council, including checking accounts and certificates of deposit.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The City's investment policy does not have any additional deposit policies addressing custodial credit risk.

Deposits, consisting of checking and savings accounts and certificates of deposit, are as follows:

	В	ank Balance	Car	rying Amount
Primary government	\$	9,721,891	\$	9,459,702
Component units River's Edge Hospital and Clinic Housing and Redevelopment Authority		11,088,692 41,742		11,046,872 39,919
Housing and Redevelopment Authority				
	<u>\$</u>	20,852,325	\$	20,546,493

During the year ended December 31, 2012, all deposits were fully collateralized by federal depositor insurance (FDIC) or by collateral held by the City or component unit's agent in the their name.

NOTE 2 – CASH AND INVESTMENTS (CONTINUED)

C. Investments

The City has the following investments at year-end:

	Credi	it Risk	Interest Risk - Maturity Duration in Years									
Investment Type	Rating	Agency	No	No Maturity Date 1 to 5		1 to 5	o 5 5 to 10		More to 10 Than 10		_	Total

N/A - Not Applicable

N/R - No Rating

N/V - Not Available

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the City would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy does not further address this risk, but the City typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk - This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the City's investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated "A" or better; revenue obligations rated "AA" or better; general obligations of the Minnesota Housing Finance Agency rated "A" or better; bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers. The City's investment policy does not further address credit risk.

NOTE 2 – CASH AND INVESTMENTS (CONTINUED)

Concentration Risk – This is the risk associated with investing a significant portion of the City's investment (considered 5 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), negotiable certificates of deposit, investment pools, and mutual funds. The City's investment policy does not limit the concentration of investments. At December 31, 2012, the City's investment portfolio includes the following percentages of specific issuers:

Municipal Bonds Illinois State

6.8%

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The City's investment policy does not limit the duration of investments.

Deposits, investments, and cash on hand are reported on the City's financial statements as follows:

		Compor	ent U	nits	
		River's Edge	Н	ousing and	Total

D. Descriptions of Long-Term Debt

- General Obligation and Public Project Bonds These bonds were issued for improvements, projects, or to refund previous general obligation or public project bonds which benefit the City as a whole and, therefore, could be repaid from ad valorem levies. All general obligation debt is backed by the full faith and credit of the City.
- Equipment Certificates The City has outstanding a series of equipment certificates, issued in accordance with Minnesota Statute § 412.301, to finance the purchase of equipment. These certificates will be repaid primarily by ad valorem tax levies and enterprise fund revenues.
- Tax Increment Bonds The City has established tax increment financing districts and has issued general obligation tax increment bonds in accordance with Minnesota Statutes, Chapters 462.585 and 273.77. It is anticipated that the ad valorem taxes, derived from the captured assessed value of property in the tax increment districts, will provide substantially all funds necessary to retire the bond principal and interest. In addition, future tax levies may be placed on the tax rolls annually as scheduled for supplementary financing.
- Notes Payable These notes were issued to assist in the financing of tax increment districts in the City. It is anticipated that the ad valorem taxes derived from the captured assessed value of these properties in the tax increment districts will provide all the funds necessary to retire these notes.

NOTE 5 – LONG-TERM DEBT (CONTINUED)

- Special Assessment Bonds These bonds are payable primarily from special assessments levied on the properties benefiting from the improvements funded by these issues. Any deficiencies in revenue to fund these issues will be provided from general property taxes.
- EDA Lease Purchase Revenue Bonds These bonds were issued by the EDA. A lease-purchase contract between the EDA and the City has been established for the purpose of financing payment of these bonds. The City has pledged rental payments in amounts equal to the debt service requirements and plans to annually appropriate city funds available for this purpose.

Through the transactions described above, the City has, in substance, assumed the debt service on the revenue bonds issued by the EDA. Therefore, the bonds have been included in the City's Statement of Net Position as a long-term liability. Further, the lease payments made by the City will be reflected as debt service principal and interest payments on the City's financial statements.

- Utility Revenue Bonds and Notes These general obligation bonds and revenue notes were issued for improvements or projects that directly benefited a specific enterprise fund. These debt issues will be repaid from revenue sources of the fund that the debt issue directly benefited.
- Long-Term Care Facility Bonds and Notes The City authorized the issuance of its \$4,400,000 Tax Exempt Loan Participation Note, Series 2006A. The City also authorized the issuance of its \$6,000,000 Tax Exempt Loan Participation Note, Series 2005C and \$1,140,000 of Subordinate Nursing Home Revenue Bonds, Series 2005D. These funds were used to construct and equip a Long-Term Care Center Facility Project (the Project). The Project is being leased to and operated by a separate nonprofit corporation pursuant to a lease and operating agreement between the City and the nonprofit corporation. The lease agreement requires the nonprofit corporation to make payments in amounts sufficient to pay principal and interest on the Project's bonds and notes when due. The City has pledged the payments it receives in the lease agreement to the payment of principal and interest on the Project's bonds and notes.
- Medical Office Building Notes During 2008, the City authorized the issuance of its \$2,675,000 Healthcare Revenue Note, Series 2008A. These notes were issued to finance a portion of the costs of a new clinic building to be located on the River's Edge Hospital and Clinic's campus. The City has pledged the payments it receives in the lease agreement to the payment of principal and interest on these notes.
- Build America Bonds During 2010, the City authorized the issuance of its \$870,000 G.O. Utility Revenue and Tax Increment Bonds, Series 2010B and \$4,435,000 Electric Revenue Bonds, Series 2010C. These bonds are "Qualified Build America Bonds Direct Pay" under the authorization of the American Recovery and Reinvestment Act of 2009. This designation provides for a federal subsidy credit to be paid to the City in an amount equal to 35 percent of the interest paid to investors in these bonds. The credit will be received semiannually to coincide with the debt service payment schedule.

NOTE 5 – LONG-TERM DEBT (CONTINUED)

E. Refunding Bonds

In 2012, the City issued \$1,890,000 of General Obligation Sewer Revenue Refunding Bonds, Series 2012A. The proceeds of this issue were used to retire, in advance of their stated maturities, the 2012 through 2034 maturities of the City's General Obligation Sewer Revenue Bonds, Series 2003C, on the call date of April 17, 2012. This current refunding decreased the City's total future debt service payments by \$173,469 and resulted in a present value savings of \$100,048.

In 2011, the City issued \$1,405,000 of General Obligation Water Revenue Refunding Bonds, Series 2011B. The proceeds of this issue were used to retire, in advance of their stated maturities, the 2012 through 2026 maturities of the City's General Obligation Water Revenue Bonds, Series 2005B, on the call date of February 1, 2012. This advance refunding decreased the City's total future debt service payments by \$146,927 and resulted in a present value savings of \$120,458.

G. Revenue Pledged

Future revenue pledged for the payment of long-term debt is as follows:

		Revenue Pledged					Curre	nt Year
Bond Issue	Use of Proceeds	Туре	Percent of Total Debt Service	Term of Pledge		Remaining Principal and Interest	Principal and Interest Paid	Pledged Revenue Received

NOTE 6 – INDIVIDUAL FUND DISCLOSURES

A. Budgeted vs. Actual Expenditures

In the General Fund, total actual expenditures exceeded budgeted expenditures in the following departments:

Department	Ac	Excess of Actual Over Budget			
Mayor and City Council	\$	1,940			
Elections	\$	7,378			
Legal	\$	19,131			
General government building	\$	3,979			
Old hospital	\$	230			
Community service officer	\$	43			
Streets	\$	52,590			
Street lighting	\$	3,103			
Senior coordinator	\$	1,295			
Recreation and leisure services	\$	320			
Economic development	\$	11,386			
Capital outlay	\$	290,253			

B. Deficit Fund Balance

The following table summarizes the deficit fund balances/net position as of December 31, 2012:

Fund		Amount		
Major Long-Term Care Facility Enterprise Fund	\$	(765,539)		
Nonmajor Firefighters' Relief Special Revenue Fund	\$	(3,250)		
Nonmajor Special Assessment Debt Service Fund	\$	(430,708)		
Nonmajor Equipment Certificates Capital Projects Fund	\$	(83,788)		

The City intends to fund these deficits through future special assessment revenues, loan principal receipts, bond proceeds, utility charges, transfers from other funds, and various other sources.

NOTE 7 – FUND BALANCES

A. Classifications

At December 31, 2012, a summary of the City's governmental fund balance classifications are as follows:

	 General Fund	Capital Projects – Permanent Nonmajor Improvement Fund Funds			 Total	
Nonspendable						
Inventory	\$ 4,538	\$	_	\$	_	\$ 4,538
Prepaid items	1,404				195	1,599
Total nonspendable	5,942		_		195	6,137

Insurance	276,595		_		_	276,595
2013 budget	250,000		_		_	250,000
Total assigned	 774,320		_		_	 774,320
Unassigned	 3,183,501				(517,746)	 2,665,755
Total	\$ 3,963,763		168,404	\$	3,641,467	\$ 7,773,634

B. Unrestricted Fund Balance Policy

The City Council has formally adopted a fund balance policy regarding the fund balance for the General Fund. The policy establishes that the City will strive to maintain an unassigned fund balance in the General Fund in the range of 35 to 50 percent of the following year's budgeted expenditures. At December 31, 2012, the unassigned fund balance of the General Fund was 53.4 percent of the subsequent year's budgeted expenditures.

In the event that the year-end unassigned General Fund balance is less than the 35 percent level, the City shall plan to adjust budget resources in the subsequent fiscal years to bring the fund balance into compliance with the adopted fund balance policy.

NOTE 8 - DEFINED BENEFIT PENSION PLANS - STATE-WIDE

A. Plan Description

All full-time and certain part-time employees of the City are covered by defined benefit plans administered by the Public Employees' Retirement Association (PERA) of Minnesota. PERA administers the General Employees' Retirement Fund (GERF) and the Public Employees Police and Fire Fund (PEPFF), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. All police officers, firefighters, and peace officers who qualify for membership by statute are covered by PEPFF.

PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by state statutes, and vest after three years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first 10 years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent for each year of service. For all PEPFF members and for GERF members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for PEPFF members, and 65 for Basic and Coordinated Plan members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated Plan members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for GERF and PEPFF. That report may be obtained at mnpera.org; by writing to PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103-2088; or by calling (651) 296-7460 or (800) 652-9026.

NOTE 8 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

B. Funding Policy

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the State Legislature. The City makes annual contributions to the pension plans equal to the amount required by state statutes. GERF Basic Plan members and Coordinated Plan members were required to contribute 9.1 percent and 6.25 percent, respectively, of their annual covered salary in 2012. PEPFF members were required to contribute 9.6 percent of their annual covered salary in 2012. In 2012, the City was required to contribute the following percentages of annual covered payroll: 11.78 percent for Basic Plan GERF members, 7.25 percent for Coordinated Plan GERF members, and 14.4 percent for PEPFF members. The City's contributions for the past three years ending December 31, which were equal to the contractually required contributions for each year as set by state statutes, were as follows:

	 <u>GERF</u>		PEPFF	<u>Total</u>		
2010	\$ 241,620	\$	122,001	\$	363,621	
2011	\$ 246,056	\$	128,018	\$	374,074	
2012	\$ 257,475	\$	131,139	\$	388,614	

River's Edge Hospital and Clinic's contributions for the past three years ended December 31, which were equal to the contractually required contributions for each year as set by state statutes, are as follows:

	 GERF					
2010	\$ 450,984					
2011	\$ 435,696					
2012	\$ 466,168					

NOTE 9 – DEFINED BENEFIT PLAN – FIRE DEPARTMENT RELIEF ASSOCIATION

A. Plan Description

Members of the City's volunteer fire department are members of the Saint Peter Firefighters' Relief Association (the Association). The Association is a single-employer defined benefit plan and operates under the provisions of Minnesota Statutes § 69 and § 424A, as amended. It is governed by a Board of Trustees consisting of six officers and trustees elected by the members of the Association for terms of three years. The mayor, city treasurer, and fire chief are ex-officio members of the Board of Trustees.

As of December 31, 2012, the membership of the Association was as follows:

Retirees and beneficiaries currently receiving benefits and retired firefighters entitled to benefits, but not receiving them yet	5
Active plan participants	
Vested	25
Non-vested	3
Total	33

NOTE 9 – DEFINED BENEFIT PLAN – FIRE DEPARTMENT RELIEF ASSOCIATION (CONTINUED)

B. Pension Benefits

Retirement Benefits – According to the bylaws of the Association and pursuant to Minnesota Statutes § 424A.02, Subds. 2 and 4, the Association pays to each member who has served as an active firefighter in the Saint Peter Fire Department for a period of 20 years or more to his resignation, and who has reached the age of 50 years or more, \$2,400 per year of service in a lump sum. A member who has served in the Saint Peter Fire Department for at least 20 years, but has not reached the age of 50 years, may retire and be placed on the deferred pension roll until he reaches the age of 50. Members who retire with less than 20 years of service but have reached the age of 50 years and have completed at least 5 years of active membership are entitled to a reduced service pension not to exceed the amount calculated by multiplying the member's service pension for the completed years of service times the applicable nonforfeitable percentage of pension. The reduced pension percentage available to members with five years of service shall be equal to 40 percent. This percentage increases 4 percent per year so that at 20 years of service the full amount prescribed is paid.

Sick and Disability Benefits – If a member of the Association becomes permanently disabled with a service related disability, the Association shall pay to such member an amount equal to the full years of active service multiplied by the yearly lump sum determined at the withdrawal of active service (currently \$2,400). The member shall be eligible to receive the disability benefit immediately upon approval of the Board of Trustees.

Death Benefits – Upon the death of any active member, not in the line of duty, the Association shall pay to the surviving spouse of one year, if any, and if there is no surviving spouse, to the surviving child or children, if any, a death benefit based on the number of years of completed service. Active members who have completed less than five years of service shall receive a fixed amount of \$2,000. Active members who have completed more than five years of service are entitled to receive a death benefit calculated by multiplying the member's completed years of service times the vested percentage of the yearly lump sum (currently \$2,400). This death benefit to members with five years of service shall be 25 percent. This percentage increases 25 percent with every five years of additional service so that at 20 years of service, the full amount prescribed is paid.

Upon the death of an active member while in performance of official duties as a member, the Association shall pay a survivor benefit equal to the amount per year of service for each year that the member served as an active firefighter without regard to minimum or partial vesting requirements, but in no case less than five times the pension amount per year of service in effect on the date of death.

C. Funding Policy

The Association's funding policy provided for contributions from the state and the City in amounts sufficient to accumulate sufficient assets to pay benefits when due. The annual contribution is the sum of the normal cost, the state contribution payment, and the provision for administrative expenses.

The Association is comprised of volunteers; therefore, there are no payroll expenditures or covered payroll percentage calculations.

Required contributions of \$52,522 (which includes both city and state aid contributions) were made by the state in accordance with Minnesota Statute requirements for the year ended December 31, 2012.

NOTE 9 – DEFINED BENEFIT PLAN – FIRE DEPARTMENT RELIEF ASSOCIATION (CONTINUED)

D. Funding Status and Progress

The amount of the total accrued pension liability is based on a standardized measurement established by GASB that, with some exceptions, must be used by relief associations for financial statement presentation. This standardized measurement is based on Minnesota Statute § 69.772. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of service years performed by the members of the Association. A standardized measure of the accrued pension liability was adopted by GASB to enable the readers of relief association financial statements to (a) assess the relief association's funding status on a going concern basis, (b) assess progress being made in accumulating sufficient assets to pay benefits when due, and (c) make comparisons among relief associations.

Because the standardized measure is used only for disclosure purposes by the Association, the measurement is independent of the actuarial computation made to determine contributions to the Association.

E. Three-Year Trend Information

Fiscal Year Ended December 31,	ual Pension ost (APC)	Percentage of APC Contributed	-	t Pension oligation
2010	\$ 65,461	100%	\$	_
2011	\$ 70,108	100%	\$	_
2012	\$ 52,522	100%	\$	_

NOTE 10 – FLEXIBLE BENEFIT PLAN

The City offers three types of flexible spending accounts: medical premiums, medical expenses, and dependant care expenses. Eligible employees can elect to participate by contributing pre-tax dollars withheld from payroll checks to the Flexible Benefit Plan (the Plan) for healthcare and dependant care benefits. Payments are made from the Plan to participating employees upon submitting a request for reimbursement of eligible expenses actually incurred by the participant.

Before the beginning of the Plan year, which is from January 1 to December 31, each participant designates a total amount of pre-tax dollars to be contributed to the Plan during the year. At December 31, the City is contingently liable for claims against the total amount of participants' annual contributions to the Plan, whether or not such contributions have been made.

Assets of the Plan are held in the City's payroll checking account. Amounts withheld to pay for employee medical insurance premiums are administered and paid out directly by the City's finance department. Medical expense and dependent care expense accounts are administered by a benefit consulting firm. Claims are made directly to the administrator by participants of the Plan. The administrator then reimburses the participants and bills the City for these reimbursements.

All property of the Plan and income attributable to that property is solely the property of the City subject to the claims of the City's general creditors. Participants' rights under the Plan are equal to those of general creditors of the City in an amount equal to the eligible healthcare and dependant care expenses incurred by the participants. The City believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 11 – SELF-INSURANCE

The City participates in a self-funded dental insurance plan (the Plan). The Plan is administered by an insurance company which determines the current funding requirements of participants under the terms of the Plan and the liability for claims and assessments that would be payable at any given point in time. In connection therewith, the City had the following changes in the balances of claims liabilities. These changes represent the sum of actual claims paid resulting from incidents that occurred during the year.

			Cur	rent Year				
	Beginni	ing of	Cl	aims and				
	Fiscal	Year	Ch	nanges in			Bala	nce at
December 31,	Liabi	lity	Estimates		Clair	m Payments	Fiscal Y	Year-End
2010	\$	_	\$	68,655	\$	(68,655)	\$	_
2011	\$		\$	63,720	\$	(63,720)	\$	_
2012	\$		\$	77,433	\$	(77,433)	\$	_

River's Edge Hospital and Clinic participates in a self-funded dental insurance plan (the Plan). The Plan is administered by an insurance company which determines the current funding requirements of participants under the terms of the Plan and the liability for claims and assessments that would be payable at any given point in time. In connection therewith, River's Edge Hospital and Clinic charged to operations a provision that represents the sum of actual claims paid and the actuarially determined estimates of liability relating to claims, both asserted and unasserted, resulting from incidents that occurred during those years for the Plan.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. Power Sales Contract

Saint Peter Municipal Utilities (the Company) is a member of the Southern Minnesota Municipal Power Agency (SMMPA). Under the terms of the power sales contract, the Company and other members are committed to purchase 100 percent of their power requirements from SMMPA through 2030. The rates paid are subject to periodic review.

B. Federal Revenue

Amounts received or receivable from federal agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

C. Litigation – Primary Government

The City had the usual and customary type of miscellaneous claims pending at year-end, mostly of a minor nature and usually all covered by insurance carried for that purpose. However, the outcome of these cases is unknown. It is not determinable at this time whether unfavorable settlements of the claims will exceed insurance coverage. City management believes that the City will not incur any material monetary loss relating to the cases. No loss has been recorded on the City's financial statements relating to these claims.

NOTE 12 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

D. Malpractice Claims - River's Edge Hospital and Clinic

River's Edge Hospital and Clinic has malpractice insurance coverage to provide protection for professional liability losses on a claims-made basis subject to a limit of \$1 million per claim, and an annual aggregate limit of \$1 million per claim and an annual aggregate limit of \$3 million. River's Edge Hospital and Clinic also has an additional \$2 million umbrella policy. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, will be uninsured.

E. Litigation - River's Edge Hospital and Clinic

The River's Edge Hospital and Clinic is subject to the usual contingencies in the normal course of operations relating to the performance of its tasks under its various programs. In the opinion of management, the ultimate settlement of litigations, claims, and disputes in process will not be material to the financial position of the River's Edge Hospital and Clinic.

The healthcare industry is subject to laws and regulations of federal, state, and local governments. Compliance with these laws and regulations, specifically those relating to the Medicare and Medicaid programs, can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Federal government activity has increased with respect to investigations and allegations concerning possible violations by healthcare providers of regulations, which could result in the imposition of significant fines and penalties as well as significant repayments of previously billed and collected revenues for patient services.

F. Government Regulations - River's Edge Hospital and Clinic

River's Edge Hospital and Clinic has agreements with third-party payors that provide for payments to River's Edge Hospital and Clinic at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

- Medicare River's Edge Hospital and Clinic is licensed as a Critical Access Hospital. River's Edge Hospital and Clinic is reimbursed for most inpatient and outpatient services at cost plus 1 percent with final settlement determined after submission of annual cost reports by River's Edge Hospital and Clinic subject to audits thereof by the Medicare intermediary. River's Edge Hospital and Clinic's Medicare Cost Reports have been audited by the Medicare fiscal intermediary through the year ended December 31, 2010. Clinical services are paid on a fixed fee schedule.
- Medicaid Inpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Outpatient services related to Medicaid beneficiaries are paid based on the lower of customary charges, allowable cost as determined through River's Edge Hospital and Clinic's Medicare Cost Reports, or rates as established by the Medicaid program. River's Edge Hospital and Clinic is reimbursed at a tentative rate with final settlement determined by the program based on River's Edge Hospital and Clinic's Medicaid cost reports have been audited by the Medicaid fiscal intermediary through the year ended December 31, 2008. Clinical services are paid on a fixed fee schedule.

NOTE 12 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

- **Blue Cross** Inpatient services rendered to Blue Cross subscribers are paid at prospectively determined rates per discharge. Outpatient services are reimbursed at outpatient payment fee screens or at charges less a prospectively determined discount. Clinical services are paid on a fixed fee schedule.
- Other River's Edge Hospital and Clinic has also entered into payment agreements with certain commercial insurance carriers and other organizations. The basis for payment to River's Edge Hospital and Clinic under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Laws and regulations governing the Medicare, Medicaid, and other programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded revenue estimates will change by material amounts in the near term.

G. Contract Commitments - Primary Government

The City has contract commitments for uncompleted construction projects as of December 31, 2012 of approximately \$970,000.

NOTE 13 – CONDUIT DEBT OBLIGATIONS

The City has issued private activity bonds to provide financial assistant to nonprofit corporations for the construction and equipping of facilities deemed to be in the public interest. The notes are secured by the property financed and are payable solely from payments received on the underlying revenue note. Upon repayment of the Commercial Development Revenue Note of 1998, the ownership of the acquired facilities transfers to the nonprofit corporation served by the revenue note issuance. Neither the City nor any political subdivision thereof is obligated in any manner for repayment of the revenue note. Accordingly, the revenue notes are not reported as liabilities in the accompanying financial statements.

As of December 31, 2012, the outstanding balance due on these revenue notes are as follows:

Bond	Description		Amount Issued		Amount
Commercial Development Revenue Note of 1998 Tax Exempt Loan Participation Note, Series 2010A	Office facilities Housing facilities	\$ 2,900,000 \$ 5,500,000		\$	1,398,850 5,471,565
				\$	6,870,415

NOTE 14 - MAJOR SUPPLIER

For the year ended December 31, 2012, bulk energy totaling \$7,357,680 was purchased from one supplier.

NOTE 15 – SUBSEQUENT EVENT

In March 2013, the City awarded the sale of \$730,000 in general obligation equipment certificates at an average interest rate of 1.3 percent.
